PROFESSIONAL SUMMARY     I am a recent graduate in Actuarial Science with partial work experience in various settings that have allowed me to develop key skills such as responsibility, teamwork, and adaptability. I am passionate about learning new things, continuously improving myself, and taking on new challenges. I am willing to live anywhere, as I see geographical changes as an opportunity for personal and professional growth. In teamwork, I contribute strategic ideas to maximize results and always strive for excellence in any assigned task, seeking support when necessary to ensure optimal outcomes. My dedication and commitment enable me to face challenges and exceed expectations.

PROFESSIONAL EXPERIENCE	<p>Process Analyst in Textile Production Laboratory, San Rafael</p> <p>Tlaxcala</p> <p>I conducted detailed analysis in the laboratory of the yarn and thread manufacturing process, covering all stages from the receipt of material in bales to the production of the final product. I performed tests on weight, tension, twisting, and resistance, ensuring product quality at each stage of the process. My work contributed to quality control and the optimization of production procedures.</p>
-------------------------	---

EDUCATION	
Aug 2019 — Dec 2024	<p>Bachelor's Degree in Actuarial Science, Universidad de las Américas Puebla</p> <p>Puebla</p>

LANGUAGES	Inglés	Good working knowledge	Spanish	Native speaker
-----------	--------	------------------------	---------	----------------

INTERNSHIPS	
Aug 2023 — Nov 2025	<p>Implementation of the Innovation and Development Area, 4 Security</p> <p>Puebla</p> <p>I participated in the drafting of manuals, the analysis and implementation of processes, and the management of exploration and exploitation portfolios, contributing to the optimization of strategic operations. I collaborated in the design and development of the organizational chart for the Innovation and Development Area, driving the organization and structure of the team to enhance its effectiveness.</p>
May 2024 — Jul 2024	<p>Project Manager Intern, Merkalia</p> <p>Puebla</p> <p>I gained experience in the internal NoCode development methodology, actively participating in the creation of requirement documents, flow diagrams, product backlogs, and the development of applications for assigned projects.
